OCEAN WISE

Bringing the Ocean to You

How it Works:

1. Browse through this catalogue and find the right program for your needs.
2. Complete our booking form with your preferred program, dates and times.
3. Ocean Wise will contact you to confirm program details including date, time and day-of coordination.
4. Ocean Wise educators bring the ocean to you!

Programs Designed For:

Schools, homeschoolers, camps, community centres, senior residences, libraries, festivals and public events, youth organisations, and corporate and community gatherings.

Includes: Curriculum-aligned, French Programming Available, Kindergarten – Grade 12.

Accessibility

Ocean Wise works to make our programming as accessible as possible. Adapted programming is available for participants with diverse learning, sensory, or accessibility needs including accommodation of mobility devices.

"As a teacher, I truly cannot say enough positive things about this program. The Sea Dome and artifact stations were an absolute highlight and captured my students' attention right away. The presenters were fantastic—warm, knowledgeable, and so engaging with the children. The program was pitched at just the right level, and my students were inquisitive, excited, and fully involved from beginning to end."
Frank J Ney, Elementary, Terra Hooyberg

For over 30 years Ocean Wise, Canada's largest ocean conservation organization, has been a leader in high-quality ocean education. Our curriculum-aligned activities and expert educators help Canadians young and old to connect with the ocean in fun and engaging ways.

With three different ways to engage you are certain to find the right program to turn your school, library, festival, or community space into an unforgettable ocean adventure!

Sea Dome | Prices starting at $1,025/day

Step inside and you'll be completely immersed in breathtaking 360-degree footage that showcases the magic of the ocean. Perfect for school assemblies, conferences, festivals or other community events, our Sea Dome program includes 2 complimentary Sea Stations. With a capacity of 250+ participants over 5 hrs, the Sea Dome is our most popular attraction.

Sea Stations | Prices starting at $525/3 hrs

Enjoy hands-on encounters with authentic ocean artifacts that bring the ocean to life. Guided by expert educators, participants explore creatures and habitats from the Arctic to tropical reefs while discovering their own role in helping to protect a healthy ocean. With a flexible format our Sea Stations fit into almost any event.

Sea the Solutions | Prices starting at $200*

Make ocean learning easy and interactive for your students with curriculum-connected, ready-to-use lesson plans. Each workshop includes a ready-to-use Ocean Wise lesson featuring videos, graphics, quizzes, and speaker notes provided to allow you to explore the topic and discuss ideas at your own pace. This is **followed by an in-person visit from an Ocean Wise educator** featuring hands-on activities that empower students to take their ocean learning to the next level. With a capacity of 30 students Sea the Solutions is a great fit for a single classroom.

Sea Dome

School Program Full-Day $1,025
Community Event Full-Day $1,838

Inside a 6-metre inflatable dome, participants explore ocean environments through stunning 360° videos and images, guided by expert Ocean Wise educators. Participants rotate between four interactive learning stations: **the Sea Dome and two Sea Stations**. Timing can be readily adapted based on group size, age range, and event format.

Program content supports British Columbia's kindergarten to Grade 12 curriculum learning related to ecosystems, biodiversity, life cycles, food webs, salmon stewardship, water systems, climate change, and conservation using immersive, place-based examples from BC and around the world.

Requirements: *The Sea Dome is 4 metres tall by 6 metres in diameter and requires an indoor space near an electrical outlet. Off-street parking and accessible entrance is also required for Ocean Wise staff.*

"It's always a pleasure to work with the Ocean Wise Education Programs crew. They are communicative, polite, and punctual. They're clearly passionate about what they do and are great at engaging visitors of all ages. There was always a line of people excited to see the Sea Dome, it's a great draw for our event. Ocean Wise always knocks it out of the park."
Yuikiko Takahashi-Lai, Gulf of Georgia Cannery Community Event

Two Curriculum Aligned Themes to Choose From

Beneath the Waves: Life, Habitats & Adaptations
Discover the wonders of ocean life! Explore marine habitats from the Arctic to the Pacific Northwest to the Tropics. Uncover amazing animal adaptations and investigate how ocean creatures survive and thrive. Let's dive in!

A Salmon's Journey: Follow the incredible journey of Pacific salmon! Trace their path from freshwater streams to the open ocean and back again. Discover the challenges they face, the amazing adaptations that guide them home, and the important role they play in healthy ecosystems. Ready? Set? Let's follow a salmon's journey!

Book Now

Sea Station

> **"The Ocean Wise learning stations and programming were outstanding. Knowledgeable presenters with high interest and interactive materials kept our K-7 students fully engaged throughout their session."**
> Stephane LeBlanc, Principal, École Robb Road

School Program Half-Day $525 Community Event Half-Day $570 or a Full-Day $900

Through a series of **hands-on artifact stations**, participants explore diverse marine ecosystems and meet the remarkable species that call them home. With authentic artifacts, specimens, maps, and interactive displays each station brings ocean science to life. Programs are tailored to different age groups and learning objectives, inspiring curiosity, environmental stewardship, and meaningful action to help protect our blue planet.

Requirements
Schools: Off-street parking. Set-up in gym or multipurpose room.

Community Events: 1-2 tables and 2-3 chairs depending on size of activation.

Six Sea Stations to Choose From

Book Now

Arctic: Explore the wonders of the Arctic through hands-on artifacts and a giant Arctic map. Discover how sea ice is changing, learn about Inuit connections to the North, and examine fascinating polar species. Participants uncover how Arctic wildlife is interconnected and why protecting this unique ecosystem matters.

Intertidal: Discover the amazing plants and animals that thrive where land meets sea. Explore tide pools, sandy beaches, and wetlands while learning how species like sea cucumbers and sea urchins adapt to life in the ever-changing intertidal zone.

Pacific Northwest: Explore B.C.'s coastal ecosystems from kelp forests and sea otters to sea urchins and shoreline invertebrates. Learn about species in your backyard and their rich historical significance.

Tropics: Dive deep into the vibrant world of coral reefs and the incredible animals that depend on them, from sharks and sea turtles to migrating whales. Discover how these ecosystems support ocean health and why protecting them matters.

Whales: Discover the amazing lives of whales and other marine mammals as they migrate across the world's oceans. Learn how these giants support healthy marine ecosystems and why their protection is so important.

Stream to Sea: Embark on a journey through the riparian zone and discover the crucial habitats found along shorelines, rivers, streams, and wetlands. Get up close and personal with bear pelts, salmon life cycles, and eagle skulls to better understand how these species link land and sea.

Sea The Solutions

Workshops are 45 – 60 mins $200

Dive into discovery with Ocean Wise and inspire the next generation of ocean changemakers. Sea the Solutions workshops help students explore pressing ocean challenges through engaging lessons, hands-on activities, and real-world conservation stories. Grounded in curriculum connections, Traditional Ecological Knowledge, and leading education frameworks, the program builds critical thinking, problem-solving, and environmental stewardship skills while highlighting practical solutions and ocean-related careers.

Each workshop combines educator-ready classroom resources with an interactive session led by an Ocean Wise educator, empowering students to take meaningful action for a healthier ocean.

> **"So important to learn about our oceans and ecosystem. I believe this is very informative for school children and a must for their learning"**
> The residents of Sunrise of Lynn Valley

Requirements: *One class per session, approx. 30 students, projector screen, HDMI connector, 3 tables or desk groupings.*

> **"I would highly recommend this experience for any other schools and camps that want their children to have a fun yet educational experience. The educators made the entire experience engaging, fun and informative for all of the children. They were fully engaged for the entire session and have continued to bring up their new ocean learnings for the following weeks!"**
> Kelsey S., PJ Kids Club, Summer Camps

Two Workshops to Choose From

Whales: Ocean Guardians: Explore the fascinating world of whales and their vital role in healthy ocean ecosystems. Students learn about whale conservation, cutting-edge marine research, and the actions we can take to protect these iconic species and their habitats.

Be the Solution to Plastic Pollution: Discover how plastic pollution impacts marine life, ecosystems, and people. Through hands-on activities and engaging discussions, students explore scientific innovations, policy solutions, and ocean-focused careers that can help create a cleaner future.
